### ***Allowable Subject Matter***

3. Claims 1-63 are allowable.

4. The following is an examiner's statement of reasons for allowance:

Claims 1-55 are allowable as indicated in the Reason for Allowance mailed on December 31, 2001 in the application 09/388,671.

Furthermore, Claims 56-63 are allowed as reason below:

The present invention as cited in claims 56-63 related to a field emission display device, the sole independent claim identifies the uniquely distinct features

“an electrically conductive metallic film formed over said upper surface of said p-type substrate and in contact with the first and second n-type doped regions; an electrically conductive grid; an electrically conductive anode structure; and an electron emitter conductively coupled to

said first n-type doped region, wherein said at least one electron emitter and said grid are displaced from said anode structure across a field emission region”.

The closest prior art of Cathey, Jr. et al. (U.S Patent No. 6,181,308) and Takemura (U.S Patent No. 5,910,701) show similar systems, but either singularly or in combination, fail to anticipate or render above quoted limitations obvious.
